ABOUT US

ABOUT US

Nigeria's most vibrant Road Construction, Building, Civil Engineering, Oil & Gas Company

PROSPECTIVE MULTILINK LIMITED (PML) is Nigeria's most vibrant Road Construction, Building, Civil Engineering, Oil & Gas Company.

At **PML** we have:

Understanding of Project Needs

What sets us apart from our competitors is the respect and professionalism we maintain in the most challenging situations including schedule.

Shorter Construction times

We take an all-inclusive approach to managing scheduling, estimating, budget control, value engineering, sub-contractor bid solicitation, on-site supervision, quality control, cost control, safety monitoring, communications services, total project management and a commitment to delivering expert approach and exceptional value.

Greater Efficiency and Cost Savings

We have skill set and knowledge of how to manage a construction project from start to finish at competitive costs.

Most assuredly, we promise and will continue to manage our business around the evolving needs of our clients, so that we can be at the forefront of change and deliver value.

Executive Secretary

OUR VISION & MISSION

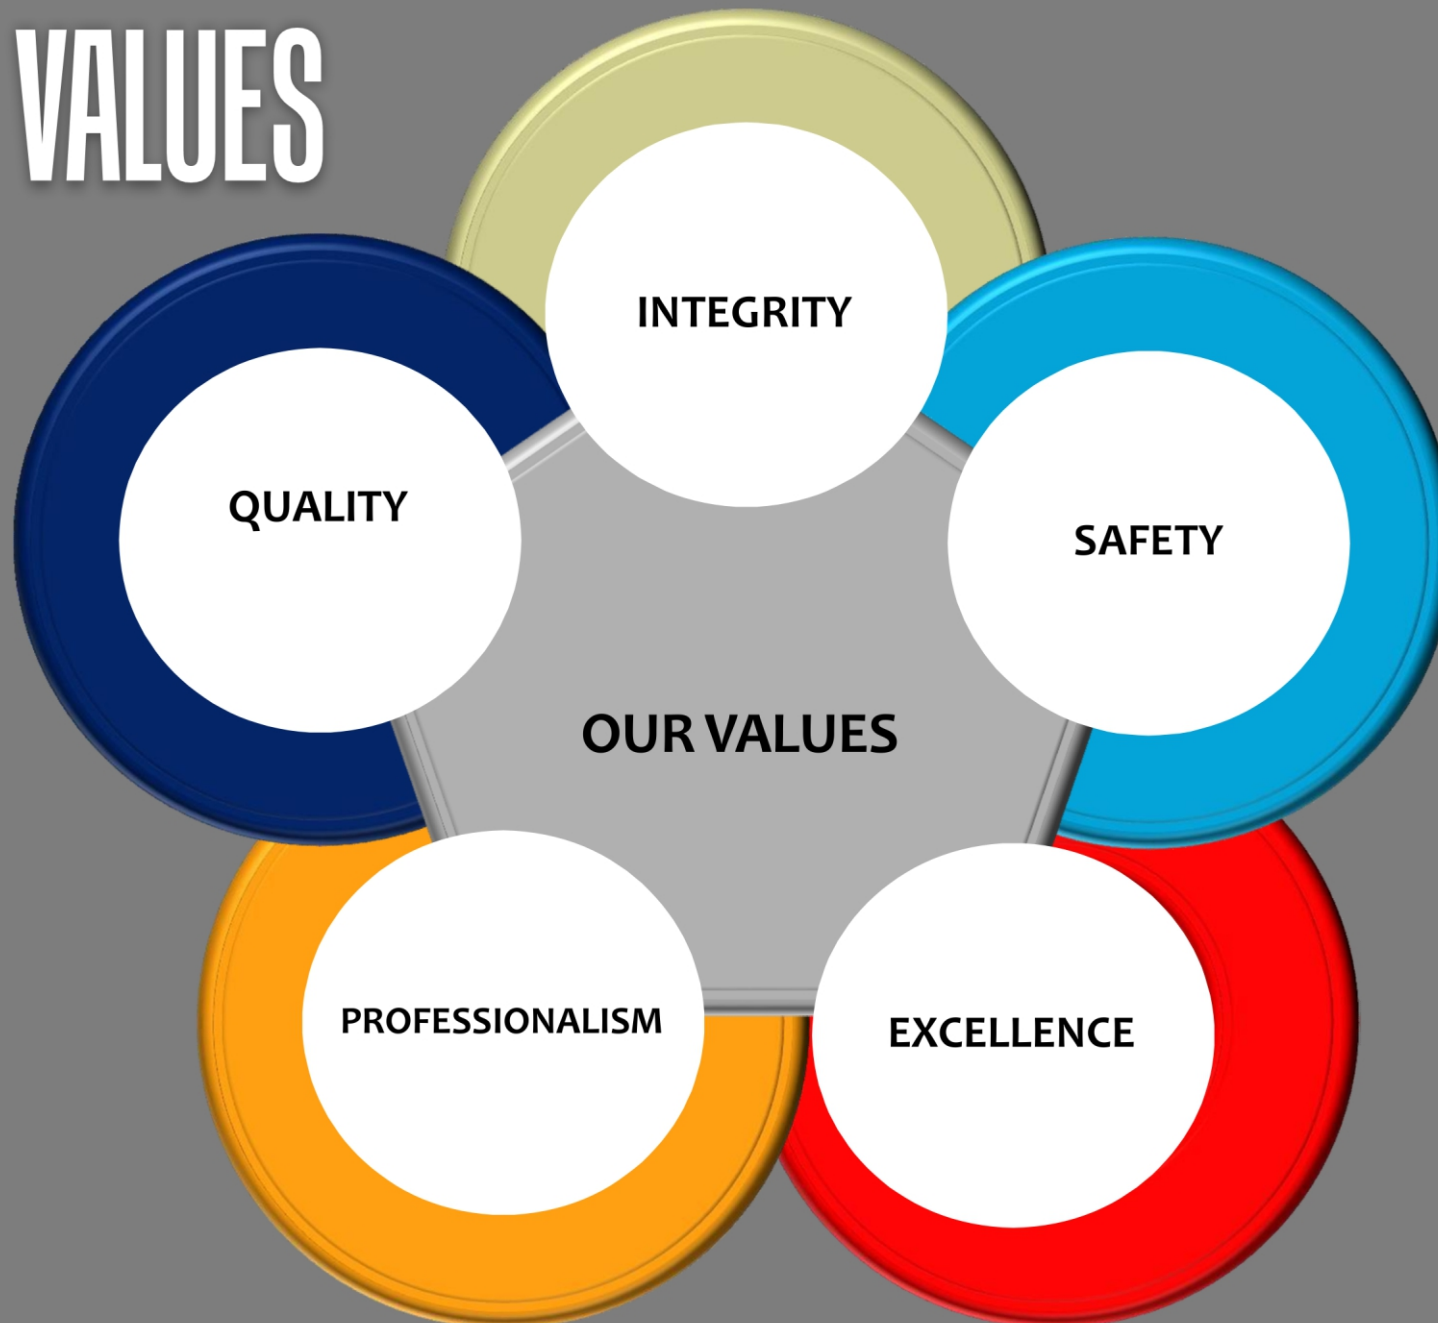

OUR VISION

To be Nigeria's most vibrant construction company; be an integral player in an industry that is laying the nitty-gritties for economic progress and development.

OUR MISSION

To provide services with the highest level of professionalism and ethical standards in order to meet the needs and aspirations of our clients.

OUR VALUES

OUR VALUES

INTEGRITY

PML's culture is grounded in integrity and respect. This means working to the highest standards of ethical business culture. Our reputation for adhering to these standards is one of our most valuable assets.

QUALITY

PML is built upon time-tested values of excellence and integrity. The reliability of our performance and the enduring quality of our projects are evidenced in our quality work for our customers. We never rest and continually strive to improve our performance.

SAFETY

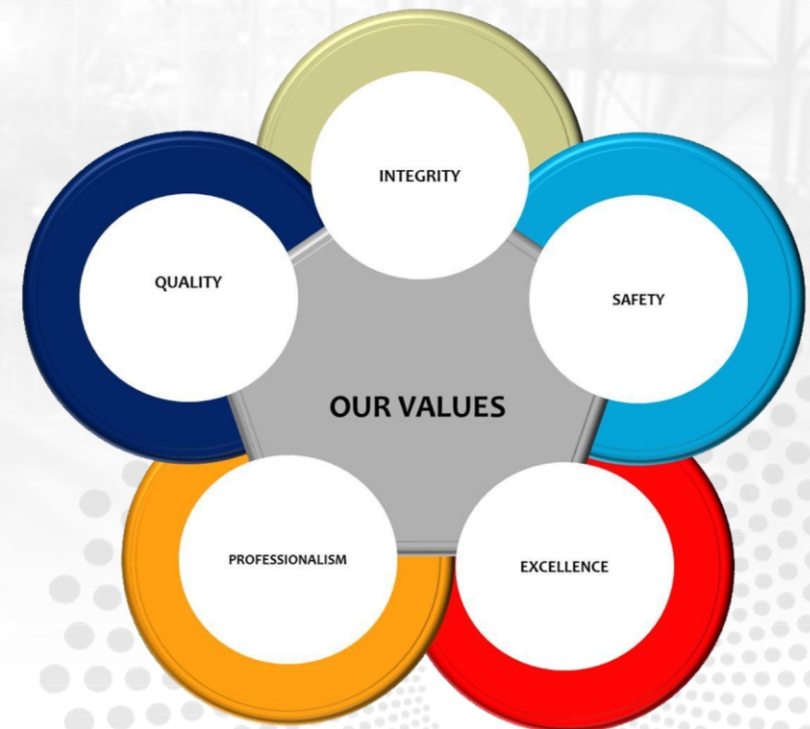

At **PML**, we believe every accident is preventable, and we continue our pursuit of doing our work with zero accidents. No other number is acceptable. *Year after year we are among the safest companies in our industry.*

PROFESSIONALISM

At **PML**, we express quality, skilled expertise and proficiency in the delivery of our services to clients by exhibiting a high level of mastery over responsibilities and relevant technology. All our actions will be aimed at satisfying our customers through the provision of affordable and reliable products and services in line with customers' expectations and desires at all times.

EXCELLENCE

At **PML**, we offer excellent and superior services that are clearly of a high grade with an extra touch of perfection at all times.

HEALTH SAFETY ENVIRONMENT

HEALTH SAFETY ENVIRONMENT

At **PROSPECTIVE MULTILINK LIMITED**, we firmly believe that all accidents are preventable and that a “safe” environment is a “healthy” environment. Together with our customers, suppliers and sub-contractors we are committed to actively promoting the highest standards of safety consciousness and discipline.

It is the policy of **PROSPECTIVE MULTILINK LIMITED** to carry out its business activities in such a manner that no fatality or injuries or damage to property arises. Every necessary step shall be taken to safeguard and protect all that work for us including third parties and host communities. Positive attitude to safety shall be rewarded as incentive. Detailed work safe procedures are in place and quality site management visit must be implemented.

In order to ensure an available performance, the following strategies will be adopted:

- The continuous identification of accident causes
- The control of accident causes
- The minimization of accident losses

PROSPECTIVE MULTILINK LIMITED will ensure relevant HSE training is in place for all its employees. Work may affect any or every system of the human body. It is therefore essential that early recognition of health hazards is established, monitored and controlled. The company retains the services of good clinics to take care of the workers. Staff and other personnel are encouraged to make use of these facilities. The company places great emphasis on the promotion of the total health concept and the protection of workers.

PROSPECTIVE MULTILINK LIMITED is committed to ensure clean and healthy environment especially in the course of work. We take Environmental Sanitation Program seriously. We take Active Promotion of Safe Environmental Sanitation Program seriously. Active promotion is not only essential but also a good business. Every effort will be concentrated towards minimization of dust and disposal of chemicals injurious to health. It is expected of every employee to adhere to and provide a safe, healthy and good & acceptable environment both at home and work.

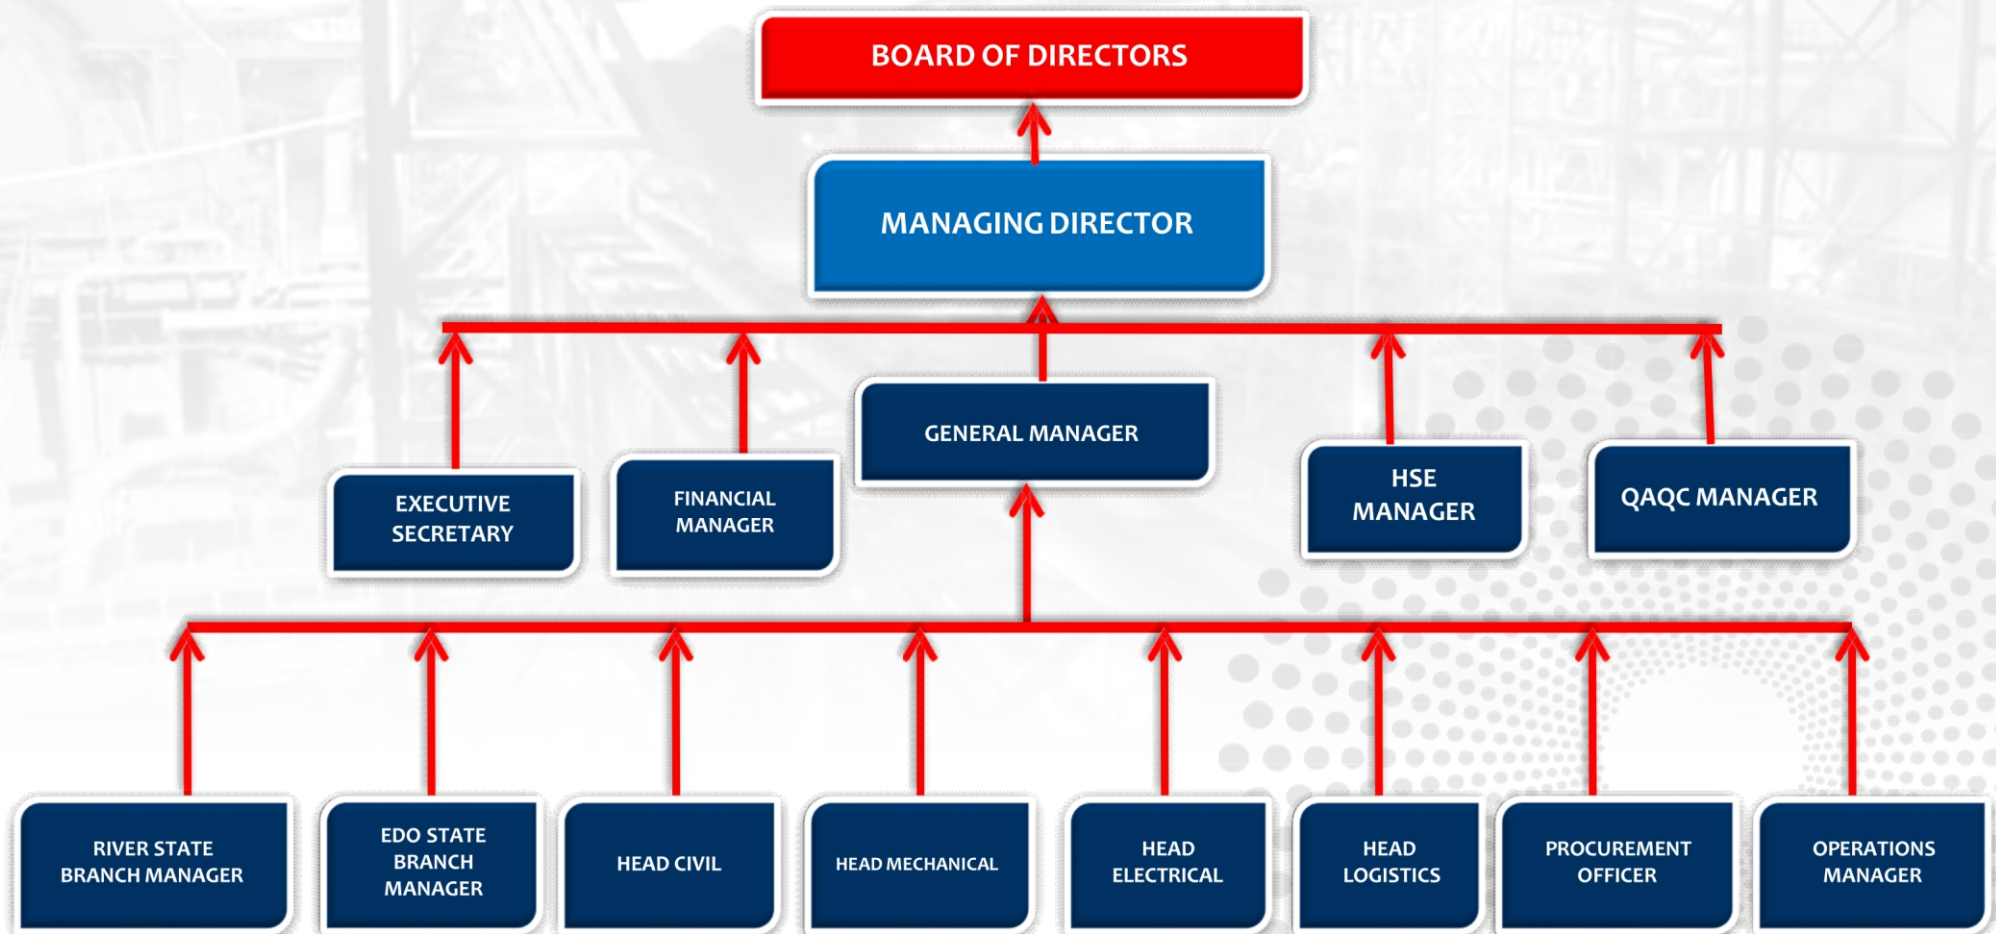

MANAGEMENT

OUR PEOPLE

A group of four diverse professionals, two men and two women, are shown in a construction setting. They are all wearing light blue button-down shirts and safety hard hats (yellow for the two men, white for the two women). They are gathered around a large set of architectural blueprints, looking at them with interest and smiling. The background is slightly blurred, showing orange construction equipment and a bright, sunny outdoor environment.

CORPORATE ORGANOGRAM

MANAGEMENT TEAM

Our Management Team consist of highly seasoned professionals and engineers with many years of experience.

- ❖ MR. JERRY GWOZDZ

TEAM OF PROFESSIONALS

*Our workers are our biggest asset, since 2005 we have hired and still hiring many workers.
We believe that working together make us family.*

PML has grown and developed a highly skilled and competent workforce capable of constructing, assembling, maintaining and servicing complex offshore, onshore and civil construction works. Our recruitment strategy is to attract, develop and retain the right people; those with values that are aligned to ours.

Our success is attributed to applying the best ideas, people and technology in forming highly experienced project management teams and a committed workforce who are engaged and dedicated to the realization of our core values and vision.

We ensure the right people deliver the right projects, providing our clients with the best technical knowledge, industry experience and capability to drive high performance and exceed expectations.

We have made commitment to stay at the forefront of our industry, providing our people with the right skills and training for today and a pathway for the future.

Our team of professionals includes:

- Engineers
- Experts
- Quality Controllers
- Technicians
- Sales & marketing executives

OUR SERVICES

AREAS & SCOPE

Our Areas & Scope includes:

- Road Construction
- Road Rehabilitation and Earthworks
- Culverts Construction
- Block wall & Construction of Drainages
- Asphaltting of Roads
- Pipeline Laying and Cable Laying Services
- Onshore and Offshore Services
- Subsea Pipeline Construction Services
- Floating Facilities Services
- Maintenance Services
- Marine Operations Services
- Technical Support Services and Management
- Oil & Gas Operations Services
- Wellhead Operations Services
- Maintenance & Engineering Support Services
- Operations Support Services
- Manpower for Offshore Construction and Maintenance Works.
- Wellhead Preparation for drilling
- Supply and Sales of Aggregates
- Heavy Equipment Rentals
- Supply and installation of sheets piles
- Architectural & Structural steel works
- Real Estate Development
- Building Construction
- Water & Sewerage
- Haulage Services
- General Concrete Works
- Foundation Construction
- Sand Blasting and Painting Works
- Major Scaffolding Works
- Supply Chain Management support services
- Surveying
- Geotechnical Engineering
- Site Clearing and Earthworks
- Cement stabilization
- Laying of base course
- Flexible pavement and surface works
- Piling works
- Pile Testing
- Reinforced concrete works for rigid pavement & road construction
- Fencing works
- Bridge construction and rehabilitation
- Project Management and Construction Management services
- Logistics Services
- Supply and installation of driven piles (cased/pre-cast)
- Supply and installation of cantilevered sheet piles for shore protection works
- Supply and installation of sheet piles for coffer dams
- Installation of bored piles.
- Installation Continuous Flight Auger Piles (CFA)
- Construction of Jetties and Vessel Berthing Facilities
- Construction of Diaphragm Walls
- Remediation of Existing Foundation by Underpinning Works
- Jet Grouting and Stabilization of Slopes
- Construction of Pile Caps, Ramps and General Concreting Works
- Industrial Procurement Services (Oil Tools Mechanical, Civil and Electrical)
- Soil Stabilization & Monitoring
- Supply Chain Management support services

ROAD CONSTRUCTION

Road construction is an increasingly significant area of **PML's** operations. The Company's many achievements in the sector in recent years have added flavour to its reputation, both nationally and internationally.

Some of its completed projects include thousands of kilometres of urban and rural roads and highways, as well as bridges.

We ensure that our roads have appropriate surfaces suitable for the targeted traffic with optimum grip, driving comfort and maximum excellent service life.

Whether working on highways, country urban roads, new construction or rehabilitation be it flexible or rigid pavement with asphalt or concrete structures, our highly qualified staff of local and expatriate professionals devote their outstanding technical know-how and construction experience.

Special emphasis is often given to sustainable and environmentally viable solution right from project conceptualization (turn-key), initial planning/design stage through construction to maintenance of the roads.

WATER

PML has over the years, garnered extensive and intensive expertise in hydro technical development and construction.

The company has accumulated vast experience in

- ❖ Irrigation
- ❖ Land Preservation
- ❖ Drainage
- ❖ Flood Control
- ❖ Borehole Sinking
- ❖ Water Supply
- ❖ Sewage Disposal

It brings its rich technical expertise to bear on the building of hydro technical structures, dams, weirs, reservoirs, elevated water tanks, main pipe lines and distribution networks, as well as drainage and sewage systems, treatment plants and pumping installations.

PML's proven experience in water related construction has enabled the company to play a pivotal role in the development of this precious natural resource.

BUILDINGS

PML undertakes the construction of buildings of all types :

- ❖ Commercial
- ❖ Residential
- ❖ Industrial
- ❖ Schools
- ❖ Hospitals
- ❖ Hotels
- ❖ Offices etc.

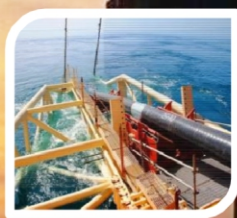

The Company has a record of completing numerous building projects across the Country, including many complex, high tech and breath-taking buildings.

Some of the buildings were turn-key projects, involving feasibility studies, preliminary and detailed design, construction, procurement (both locally and from overseas), equipment installation, etc.

PROSPECTIVE MULTILINK LIMITED provides integrated client-focused and cost-effective services in the oil and gas industry with specialized expertise for:

- Onshore and Offshore Services
- Pipeline Laying and Cable Laying Services
- Subsea Pipeline Construction Services
- Floating Facilities Services
- Maintenance Services
- Marine Operations Services
- Technical Support Services and Management
- Oil & Gas Operations Services
- Wellhead Operations Services

PROSPECTIVE MULTILINK LIMITED has been a key Contractor involved in Engineering, Procurement, Construction Installation, Commissioning and provision of the following services:

- Production Support Services for Onshore Operation
- Underwater Maintenance Operation Services to support Onshore Production
- Project/Discipline Support Engineering Services
- Oil & Gas Technicians Services to Support Onshore Production
- HSE Support services
- Onshore Production Operations Services at the Onshore
- Instrumentation Maintenance Discipline services
- Electrical Maintenance Discipline Services
- Corrosion Engineering Services
- Wellhead Facility Operations Services
- Mechanical Maintenance Discipline Services
- Operations/ Business Support Services
- Provision of Supply Chain Management support services
- Onshore/Offshore Fabrication Works /Repairs
- Mechanical, Electrical & Instrumentation Maintenance Workshop Services.
- Manpower for Offshore Construction and Maintenance Works.

QUARRY & PLANT

PML owns and operate a quarry in Nigeria, to extract, process and produce a variety of high quality aggregates.

In addition to supplying our own construction projects with building materials and boulder for a broad range of construction applications, these high quality materials are now also available for sale to third parties at competitive rates.

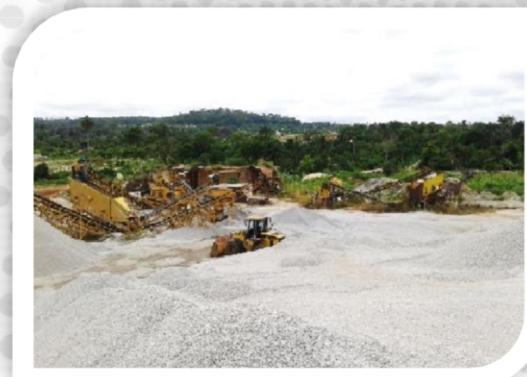

All aggregates are produced to meet international standards and can be adjusted to satisfy specific customer requirements.

QUARRY LOCATION

Imeke Uzairue
Imeke - Edo State

SALES OUTLET & DUMP SITE

Evhekwa, Emuoha LGA
River State

A large-scale photograph of a quarry or construction site. In the foreground, a gold Mercedes-Benz Actros 3341 dump truck is shown from a front-three-quarter view, carrying a load of dark material in its bed. Its license plate is 'S-MB 3341'. Behind it, another similar truck is visible, and further back, a third truck is parked. The background features steep, excavated hillsides under a cloudy sky. The text 'RELIABLE DELIVERY' is superimposed in large white letters across the middle of the image, flanked by two horizontal white lines.

RELIABLE DELIVERY

PML has the capacity to provide reliable solutions for aggregate needs, to meet each customer's particular requirements. Our quarry equipment inventory features the latest model machines and technology from leading brands worldwide, and operates to the highest standards.

To ensure constant and consistent availability, equipment is well-maintained according to original equipment manufacturer (OEM) guidelines. Our extensive fleet of purpose designed trucks guarantee the reliable delivery of aggregates; in addition to various truck sizes available from 30 t to 45 t.

Such assets support our ability to offer customers a steady supply chain, with the benefit of Just-in-Time delivery.

MERCEDES ACTROS TRUCK AND MAN DIESEL TRUCKS

FLEETS OF MERCEDES ACTROS TRUCK

CONSISTENT QUALITY

Superior quality continues to set PML apart. Our success is built on the ability to consistently deliver unmatched excellence in our products and services.

Within our quarry operations, this is made possible through a firm commitment to quality management processes and procedures.

At every stage of the planning, production, stocking and delivery process, our technical experts apply vast know-how to ensure consistency in products.

Well-equipped site laboratories conduct necessary quality checks, and routine testing and inspection of all aggregates is carried out to ensure that materials consistently meet customer quality standards and are in accordance with the agreed customer specification.

Additionally, PML undertakes regular testing at advanced international mineral testing laboratories to ensure a full and independent assessment of material quality.

QUALITY

ASSURANCE

For **PROSPECTIVE MULTILINK LIMITED**, Quality is one of the most important means for achieving the objectives of the company's business strategy. The concept of quality for **PML** includes all the various aspects and features of a product or service with the aim to satisfy our clients expect actions and requirements.

The realization of these quality objectives while keeping the basic objectives of operating as an integrated energy, oil and gas services company, depends on the quality of personnel, on the adequacy of organization commitment to work and above all, on everybody's attitude to the problem of quality.

From the above view, the management of **PML** will ensure that:

- The personnel are highly skilled in their field of activity and undergo periodic training.
- responsibilities, authorities of the different work phases are clearly defined and documented.
- the quality system is properly maintained and documented.

PML QA/QC management has got the necessary authority and freedom of volition to check that the system is correctly implemented and to propose and start any corrective action whenever deemed necessary. The overall authority for the establishment and implementation of the quality assurance of **PML** is assigned to the QA/QC department manager and the QA/QC department shall report directly to the Manager Operations and from there the Managing Director.

AGGREGATES SALES

From the strong granite rock found in our quarry, **PML** processes and produces high quality aggregate products available for sale. Such aggregates, which are offered in a choice of technical specifications, are suitable for a wide range of applications, including production of asphalt for roads, concrete for buildings, and boulders for breakwaters.

Aggregates sold at **PML's** quarry have been used by the company to construct Nigeria's premier projects in the infrastructure, building and industry sectors –and as such, have proven superior in regards to quality, consistency and reliability. These same products are now available for sale to third parties.

Furthermore, due to the vast resources and the in-built flexibility of **PML's** quarry, specifications can be adjusted to satisfy specific customer requirements.

We offer a broad selection of crushed rock, sand and boulders. Our quarry and dump sites are strategically located for speedy delivery which enables us to fulfill contracts of any size.

Our Products

- ❖ Stone dust
- ❖ Concrete aggregates
- ❖ Asphalt aggregates
- ❖ Base course
- ❖ Boulders

OUR EQUIPMENT

Our equipment listings consist of a fleet of both owned and partnered in order to effectively deliver projects of any magnitude. Our corporate synergy with other related partners flourishes this fact hence we boast of a robust stock.

Below is a listing of some of our equipment:

EARTH WORKS

- Trencher
- Bulldozer
- Swamp Buggy
- Back Hoe (JCB)
- Loader
- Uni-Loader
- Roller
- Compactor
- Grader
- Tipper Truck
- Tipper Trailer
- Tankers (Water & Diesel)
- Articulated Dump Truck

LIFTING EQUIPMENT

- Mobile Crane
- Tower Crane
- Man Lift
- Forklift & Tele Handler
- Self Loader

OTHERS

- Generator
- Tower Lights
- Concrete Mixer
- Power Floats
- High Water Pressure Pump
- Vibrators
- Asphalt Cutters
- Hydro Testing Pump
- Air Compressor
- Dewatering Pump (6" & 3")
- Welding Machine
- Power Screen & Vibratory Screen
- Kerb Casting Machine
- Interlock Laying Machine
- Transit Mixer

TRANSPORT EQUIPMENT

- Trailer with Low Bed & Flat Bed
- Recovery Trucks & Pickup

VEHICLES

- Cars and Buses
- Pickups

OUR CLIENTS

A close-up photograph of two hands shaking in a firm grip. The person on the left is wearing a light-colored, textured suit jacket with four buttons visible on the cuff. The person on the right is wearing a dark grey suit jacket. The background is a dark, out-of-focus grey.

LIST OF CLIENTS

PROSPECTIVE MULTILINK LIMITED is successfully associated with many prestigious clients from different industries. Below are some of the list of our clients:

The background of the slide is a faded, grayscale image of an industrial facility, possibly a refinery or chemical plant, featuring complex piping, structural steel, and a tall distillation column. In the bottom right corner, there is a decorative graphic consisting of a circular arrangement of small dots, creating a halftone or mesh-like effect.

*Looking forward to your patronage.
Thank you!*
